Current University/College

Please enter information for the university or college that you are currently attending.

Current University/College Name *

Current University/College Location *

Current Major Field of Study *

Cumulative GPA *

Major GPA *

Starting Enrollment Date (month/year) *

Expected Graduation Date (month/year) *

Expected Degree *

Attach a copy of your Unofficial Transcript. Please use the following naming convention for your file: Lastname_Firstname_transcript.pdf *

No file chosen

Former University/College #1

Please enter information for the university or college that you most recently attended before you arrived at your current

university/college.

Former University/College Name #1

Former University/College Location #1

Major Field of Study at former University/College #1

Cumulative GPA at former University/College #1

Dates of Attendance (start month/year – end month/year) at former University/College #1

Former University/College #2

Please enter information for the university or college that you attended before your former university/college #1.

Former University/College Name #2

Former University/College Location #2

Major Field of Study at former University/College #2

Cumulative GPA at former University/College #2

Dates of Attendance (start month/year – end month/year) at former University/College #2

Relevant Coursework & Skills

Please check the coursework that you have completed or will have completed by June 2013.

Math

- Calculus
- Differential Equations
- Statistics

Engineering

- Statics
- Strength of Materials
- Advanced Structural Analysis
- Structural Steel Design and Analysis
- Dynamics
- Structural Analysis
- Reinforced Concrete Design and Analysis
- Geotechnical Engineering
- Engineering Materials (with testing lab)

Computer Skills

- C++ Programming
- SAP 2000
- Perform 3D
- Microstation
- Matlab
- ETABS
- AutoCAD

Project Ranking

Please rank your internship project choices. The full list of 2014 projects is still being developed. More project details will be posted in January 2014. To read more about the projects, visit:

http://peer.berkeley.edu/education/summer_internship_program.html

Select Your First Choice Internship Project *

Describe your ranking selections above. Are there any educational or logistical reasons why you chose those projects? *

Maximum Allowed: 200 words. *Currently Used: 0 words.*

Describe how your education and work experience to date have prepared you to complete research related to earthquake engineering, earthquake mitigation, and earthquake resilient communities. Also discuss the strengths that you will bring to your research project if selected. *

Maximum Allowed: **300** words. *Currently Used: 0 words.*

Provide a statement of purpose that describes your academic and career goals. How would this internship research experience help you achieve these goals? *

Maximum Allowed: **300** words. *Currently Used: 0 words.*

Attach your resume. Please use the following naming convention for your file: Lastname_Firstname_resume.pdf

-

Gender

- Female
 Male

Race and Ethnicity (you may check more than one box)

- Native American or Alaska Native
 Asian
 African American or Black
 Native Hawaiian or Other Pacific Islander
 Hispanic or Latino
 Caucasian or White

Did either of your parents or any of your siblings graduate from college?

- Yes
 No

Have you had previous undergraduate research experience, beyond organized laboratory coursework?

- No
 Yes, please describe

Please indicate the highest level of education you plan to complete:

- B.S.
 M.S.
 Ph.D.

Please rate your understanding of the application and selection process for graduate school, e.g., how to prepare statements of research interest,

how to identify the best school for you.

- No understanding
- Some understanding
- Good understanding
- I understand exactly what to do

How did you hear about the PEER Summer Internship Program?
