Tailoring Experimental Strategy and Setup: The Long Story of the Seismic Behaviour of Precast Structures

Paolo Negro

ELSA Laboratory, Joint Research Centre
European Commission

Synopsis

- Cyclic behaviour of pre-cast columns
- Comparison of performances of pre-cast and cast-in-situ frames
- Seismic behaviour of single-storey pre-cast industrial buildings
- Project SAFECAST

3rd International Conference on Advances in Experimental
Structural Engineering
October 15-16, 2009 – San Francisco

Thank you
