

# PEER Education Program

*"PEER's legacy will be culture of research collaboration and volunteerism developed in our undergraduate and graduate students."*

2007 PEER Assistant  
Director for Education,  
Scott Ashford

*PEER is shaping tomorrow's leaders today through...*

## Internships

*Over 90% of undergraduate participants in PEER education programs, such as summer internships, go on to attend graduate school.*

## Outreach

*Most K-12 outreach is initiated and carried out by PEER's Student Leadership Council, a lasting example of the PEER culture.*

## Collaboration

*PEER's graduate student researchers are shown early on the benefits of participation in multidisciplinary research teams.*

## Seismic Design Competition

*Undergraduates annually design, build and test buildings in the event attended by hundreds of practitioners.*
